

# BLADDER PROBLEMS...

## EASY PEEZY!

## Vesicat

To support the bladder,  
kidneys and urinary tract.

Only available at your  
veterinary practice

## Vesicat

### To support the bladder, kidneys and urinary tract.

Vesicat promotes long-term physiological function of the uroepithelium and the development of the mucous membranes of the bladder thanks to its special complex of ingredients. The Vitamin C in Vesicat helps to strengthen the immune system and has diuretic properties that contribute to the flushing of the urinary tract while melissa and L-tryptophan, two other Vesica components, are known for their calming properties.

### Ingredients (excerpt)

#### D-mannose

D-mannose is a sugar used to treat bladder irritation and support the body's defenses against invading and existing germs.

#### N-acetyl-D-glucosamin

N-acetyl-D-glucosamin is the basic building block of glucosaminoglycans, which make up an essential component of the protective layer lining the bladder mucosa. There is evidence that oral glucosamine intake may have beneficial effects on the physiological function of the uroepithelium.

#### L-tryptophan

This amino acid is a precursor to the "happiness hormone" serotonin.

#### Melissa extract

Melissa extract (*Melissa officinalis*) has a calming effect.

#### Goldenrod herb

Goldenrod herb (*Solidago virgaurea*) is characterized by its diuretic action, which contributes to the flushing of the urinary tract. The herb also has antispasmodic properties.

#### Nettle extract

Nettle extract (*Urtica dioica*) has a diuretic effect that helps flush the urinary tract. It can also help reduce inflammation.

#### Turmeric extract

Turmeric has antioxidant properties.

#### Polyporus umbellatus (ground)

The vital mushroom *Polyporus umbellatus* is used for its diuretic effect. The so-called shellbroken process is used in the production of vital mushrooms to improve the absorption of the nutrients they contain. In this process, the mushrooms are finely ground to break down the cell walls and prepare the ingredients for improved absorption.

#### Coriolus versicolor (ground)

*Coriolus versicolor* is used supportively to strengthen the entire organism. Through the so-called shellbroken process, the absorption of the nutrients from vital mushrooms is improved. In this process, the mushrooms are finely ground to break down the cell walls and prepare the ingredients for improved absorption.

#### Zinc

Zinc can aid in supporting the immune system.

#### Vitamin C

Vitamin C plays an important role in increasing the bioavailability of vital mushrooms while acting as an antioxidant that scavenges free radicals. In addition, it helps support the immune system.

#### B vitamins

B vitamins help support the physiological function of the uroepithelium.

## Vesicat tablets

<b>Product type</b>	Complementary feed for cats
<b>Number of tablets</b>	45 / 90 × 1,5g divisible tablets
<b>Composition</b>	Milk and dairy products, processed animal protein, yeast, <i>Polyporus umbellatus</i> (ground), <i>Coriolus versicolor</i> (ground), N-acetyl-D-glucosamin, goldenrod (dried and ground), D-mannose (3,3%), minerals, eggs and egg products, fish and fish by-products
<b>Analytical components</b>	Crude protein (29.4%), crude ash (10.0%), crude fiber (2.2%), crude fat (9.5%)
<b>Sensory additives (per kg)</b>	Turmeric extract (8,300mg), balm mint extract (8,300mg), nettle extract (20,830mg)
<b>Nutritional additives (per kg)</b>	Folic acid (24mg), L-tryptophan (6,000mg), vitamin B1 (267.3mg), vitamin B6 (118.8mg), vitamin B12 (0.5mg), vitamin C (6,695mg), zinc oxide (835.2mg)
<b>Daily-recommended dosage</b>	Vesicat can be given directly or mixed with the pet's food.
<b>Ensure sufficient fluid intake.</b>	1 × a day
	< 2,5kg
	2,5–5kg
	> 5kg
<b>Shelf life and expiration information</b>	Do not store over 25°C. Use within 6 months after opening. Store the container tightly closed in a dry location.
<b>Note</b>	Do not use in cases with urinary tract obstruction, during pregnancy and lactation, or in cases of severe renal insufficiency. Use cautiously for pets with severe heart failure. Made in Germany.

## Vesicat powder

<b>Product type</b>	Complementary feed for cats
<b>Net quantity</b>	50g powder
<b>Composition</b>	<i>Polyporus umbellatus</i> (ground), <i>Coriolus versicolor</i> (ground), N-acetyl-D-glucosamin, goldenrod (dried and ground), D-mannose (9,7%)
<b>Analytical components</b>	Crude protein (14.6%), crude ash (3.0%), crude fiber (3.2%), crude fat (0.5%)
<b>Sensory additives (per kg)</b>	Turmeric extract (24,175mg), balm mint extract (24,175mg), nettle extract (60,440mg)
<b>Nutritional additives (per kg)</b>	Folic acid (69.12mg), L-tryptophan (17,400mg), vitamin B1 (768.24mg), vitamin B6 (333.63mg), vitamin B12 (1.45mg), vitamin C (19,360mg), zinc oxide (2,419.2mg)
<b>Daily-recommended dosage</b>	Vesicat can be given directly or mixed with the pet's food. Ensure sufficient fluid intake.
	< 2,5kg
	2,5–5kg
	> 5kg
	1 ×  ≈ ca. 0,52g (slightly heaped measuring spoon)
<b>Shelf life and expiration information</b>	Do not store over 25°C. Use within 6 months after opening. After opening, remove the powder promptly and close the container tightly. Store the container tightly closed in a dry location.
<b>Note</b>	Do not use in cases with urinary tract obstruction, during pregnancy and lactation, or in cases of severe renal insufficiency. Use cautiously for pets with severe heart failure. Suitable for animals suffering from allergies. Free from animal ingredients. Do not inhale powder dust. The filling level is predefined for technical reasons. Made in Germany.
