Oooo...

Clean first...

Otex is an ear cleanser that gently dislodges build-up and dispels odors. With an acidic pH-value (< 3), Otex creates an inhospitable climate for mites, fungi and bacteria.

... then maintain!

Supports the regeneration of the skin, especially for use on and in the ear. Can also be used in skin folds. Made with Manuka honey.

Otex

Care product for animals. Otex is an ear cleanser that gently dislodges build-up and dispels odors. With an acidic pH-value (< 3), Otex creates an inhospitable climate for mites, fungi and bacteria.

Thanks to the natural ingredients, the ear is gently cleaned, irritated skin is soothed and itching in the ear can be alleviated. Otitis externa causes increased production of cerumen due to multiple changes and hyperplasia of the apocrine glands. Before applying topical medications for treatment, the exudate or cerumen should be removed with an ear cleanser.

Otex & Otysan

Otysan

Care product for animals. Supports the regeneration of the skin, especially for use on and in the ear. Can also be used in skin folds. Made with Manuka honey.

Otysan drops are used to comfort and soothe irritation of the pinna and outer ear. They support the regeneration of skin, especially on and in the ear. The unique combination of botanical ingredients and high-grade Manuka honey (MGO 514+/UMF 15+) in Otysan supports natural skin functions and calms irritated areas of the auditory canal.

Otex

Product type

Care product for animals

Contents

150ml

Composition

Aqua, glycerin (vegan), citric acid, helichrysum angustifolium flower extract, witch hazel extract, xanthan gum, potassium sorbate, alkylpolyglucoside

Instructions

For use in the external auditory canal. In case of severe wax build-up or deposits, use 1-2 times a day. Drop Otex into the ear canal and gently massage the base of the ear. This ensures that the product is well distributed to dissolve the build-up. Your pet will then shake their head, thus dislodging even more build-up. Clean the outer ear, the auricle, with a towel or cotton pad. Please do not use Q-tips or similar devices. In the event that a more thorough cleaning of the ear canal is necessary, arrange to have it done by your veterinarian.

Note

Do not store above 25°C.

Do not expose to direct sunlight.

Shelf life after opening 2 years.

After opening, store in a cool and dark place.

Avoid contact with eyes. In case of eye contact, rinse with plenty of water.

Keep out of reach of children.

If swallowed, consult a physician.

Made in Germany.

Ingredients

Witch Hazel Extract (*Hamamelis virginiana*)

Witch hazel extract can soothe itching and reduce scratching of the ears.

Italian strawflower

Italian strawflower, also called immortelle, has restorative and skin-soothing properties. It can also stimulate blood circulation and promote lymphatic drainage.

Citric acid

Citric acid reduces the pH-value in the ear, creating an inhospitable environment for mites, fungi and bacteria.

Otysan

Product type

Care product for animals.

Contents

20g drops (approx. 170 pumps)

Composition

Manuka honey (MGO 514+/UMF 15+), calendula officinalis, acidum lacticum

Excipient

Glycerine

Daily recommended use

2 x daily

	1-2 pumps
< 10kg	2 pumps
10-20kg	3-4 pumps
> 20kg	5-6 pumps

Instructions

Instructions for application to skin folds

When applying Otysan to skin folds and lips, lightly massage the drops onto the affected area.

Instructions for application to ears

When applying Otysan to ears, clean the ears before applying the recommended number of drops onto the affected area of the ear. Press the dispenser several times. Gently massage in and distribute the drops evenly in the ear.

Note

Do not store over 25°C. Use within 6 months after opening.

Keep out of reach of children.

Made in Germany.

Ingredients

Manuka honey (MGO 514+)

Manuka honey is derived by honey bees from the South Sea myrtle (Manuka bush) in New Zealand and has been used there for many generations. Otysan features Manuka honey with a particularly high level of methylglyoxal (MGO 514+), a sugar metabolite that is present in concentrations 100 times higher than in conventional honeys. Due to this unique natural phenomenon and the subsequent antibacterial properties, Manuka honey is highly acclaimed by experts worldwide.

Calendula extract

(*Calendula officinalis flores*)

Calendula nurtures and soothes irritated skin and the infected area.

Lactic acid (*Acidum lacticum*, pH-value: 2,8)

Lactic acid lowers the pH value (pH = 2,8) to an inhospitable environment for malassezia and bacteria.
