5%
CBD

"InuVet products are the number one choice at our vet practice. Especially Calmin. Why? Because we have had such incredibly good results when treating our patients with it."

**Lina Simons,
Khelladi Small Animal Practice**

CBD oil (with cannabidiol and L-tryptophan).

Calmin 5% CBD isolate

Oil with CBD (Cannabidiol) and L-Tryptophan.

Calmin is a mono-CBD-nurturing oil with L-Tryptophan. As a solubilisate, Calmin has a high bioavailability: Once the solubilisate comes into contact with water, the highly concentrated dissolved ingredients are enclosed in fine vehicles - a micro-emulsion is formed. In this form, the ingredients can be more quickly and effectively absorbed by the body and Calmin can thus be dosed much more efficiently.

Product type

Care product for cats and dogs

Contents

2ml / 5ml / 10ml oil

Composition

MCT oil, CBD (5%) isolated from commercial hemp, L-tryptophan (2.5%)

Shelf life and expiration information

Store tightly sealed in an upright position in cool, dry conditions and use within 6 months after opening.

Do not rinse or wash any part of the pipette with water.

Note

🚫 Free from THC.

Free from terpenes and phenols.

To ensure that the Calmin bottle remains securely sealed, please follow these instructions: After each use, clean the rim of the bottle with a dry, dust-free cloth to remove oil residue, keep the bottle upright and do not shake.

For use in cats and dogs over 6 months old.

Keep out of the reach of children.

Made in Germany.

Ingredients (excerpt)

CBD

CBD, in contrast to THC (tetrahydrocannabinol), has no psychoactive effect. To ensure that Calmin does not contain THC, we use a special purified commercial distillate. It is made with an alcoholic distillation process that selectively extracts CBD and eliminates THC. The final product does not contain any alcohol, since it completely evaporates during the production process.

L-tryptophan

L-tryptophan is an amino acid and a precursor to the happiness hormone serotonin.
